

Election of Invention

Applicant elects, without traverse, Invention I (claims 1-14).

Remarks

In the office action mailed June 29, 2004, the Examiner subjected claims 1-21 to a restriction and/or election requirement. Particularly, the Examiner asserted that claims 1-14 are drawn to methods, systems and programs for determining patent license fee data (Invention I), whereas claims 15-21 are drawn to a method for determining exposure rate data (Invention II). In this amendment, Applicant elects, without traverse, Invention I (claims 1-14).

Respectfully submitted,

A handwritten signature in dark ink, appearing to read 'Scot A. Reader', with a long horizontal flourish extending to the right.
